

Introducing the new Canine and Feline Wellness Profiles from IDEXX Laboratories

IDEXX Laboratories offers a full range of attractively priced profiles for use within your Senior Wellness programmes and you may choose which is best for the individual patient.

We have extended our Senior Profile range by adding two non-interpreted profiles – the Canine and Feline Wellness Profiles. These profiles are available at the special introductory price of:

Canine £25.00 + VAT*
Feline £25.00 + VAT*

*Subject to the normal early payment discount terms and conditions

Non-interpreted profiles are particularly suited for use in a screening programme – don't forget you can always upgrade the profile to include a Clinical Pathologist's comments at a later stage.
